CONTENTS

Second International Symposium On Health Effects of Drinking Water Disinfectants and Disinfection By-Products

Introduction

J. R. Fowle, III and F. C. Kopfler. Water disinfection: microbes versus molecules—an introduction of issues 3

The Necessity for Disinfection and Implications for Human Health

J. C. Hoff and E. W. Akin. Microbial resistance to disinfectants: mechanisms and significance 7

V. P. Olivieri, M. C. Snead, C. W. Krusé, and K. Kawata. Stability and effectiveness of chlorine disinfectants in water distribution systems 15

R. G. Rice and M. Gomez-Taylor. Occurrence of by-products of strong oxidants reacting with drinking water contaminants—scope of the problem 31

E. Klein. Effects of disinfectants in renal dialysis patients 45

Mutagenicity and Carcinogenicity of Specific Organic Disinfection By-Products

R. J. Bull, J. M. Brown, E. A. Meierhenry, T. A. Jorgenson, M. Robinson, and J. A. Stober. Enhancement of the hepatotoxicity of chloroform in B6C3F1 mice by corn oil: implications for chloroform carcinogenesis 49

S. L. Herren-Freund and M. A. Pereira. Carcinogenicity of by-products of disinfection in mouse and rat liver 59

E. L. C. Lin, F. B. Daniel, S. L. Herren-Freund, and M. A. Pereira. Haloacetonitriles: metabolism, genotoxicity, and tumor-initiating activity 67

M. J. Parnell, L. D. Koller, J. H. Exon, and J. M. Arnzen. Trichloroacetic acid effects on rat liver peroxisomes and enzyme-altered foci 73

G. R. Douglas, E. R. Nestmann, and G. Lebel. Contribution of chlorination to the mutagenic activity of drinking water extracts in Salmonella and Chinese hamster ovary cells 81

J. E. Klaunig, R. J. Ruch, and M. A. Pereira. Carcinogenicity of chlorinated methane and ethane compounds administered in drinking water to mice 89

Studies on Complex Mixtures

E. A. Voudrias, R. A. Larson, V. L. Snoeyink, A. S. C. Chen, and P. L. Stapleton. Hypochlorous acid-activated carbon: an oxidizing agent capable of producing hydroxylated polychlorinated biphenyls 97

J. R. Meier, H. P. Ringhand, W. E. Coleman, K. M. Schenck, J. W. Munch, R. P. Streicher, W. H. Kaylor, and F. C. Kopfler. Mutagenic by-products from chlorination of humic acid 101

B. L. Van Duuren, S. Melchionne, I. Seidman, and M. A. Pereira. Chronic bioassays of chlorinated humic acids in B6C3F1 mice 109

B. W. Lykins, Jr. and W. Koffskey. Products identified at an alternative disinfection pilot plant 119

R. G. Miller, F. C. Kopfler, L. W. Condie, M. A. Pereira, J. R. Meier, H. P. Ringhand, M. Robinson, and B. C. Casto. Results of toxicological testing of Jefferson Parish pilot plant samples 129

P. Wilcox and S. Williamson. Mutagenic activity of concentrated drinking water samples 141

W. H. Glaze. Reaction products of ozone: a review 151

M. M. Bourbigot, M. C. Hascoet, Y. Levi, F. Erb, and N. Pommery. The role of ozone and granular activated carbon in the removal of mutagenic compounds 159

L. Cognet, Y. Courtois, and J. Mallevialle. Mutagenic activity of disinfection by-products 165

Target Organ Toxicity of Specific Organic Disinfection By-Products

M. K. Smith, H. Zenick, and E. L. George. Reproductive toxicology of disinfection by-products 177

J. R. Hayes, L. W. Condie, Jr., and J. F. Borzelleca. Toxicology of haloacetonitriles 183

R. D. Laurie, J. P. Bercz, T. K. Wessendarp, and L. W. Condie. Studies of the toxic interactions of disinfection by-products 203

M. E. Davis. Effect of chloroacetic acids on the kidneys 209

M. R. Roby, S. Carle, M. A. Pereira, and D. E. Carter. Excretion and tissue disposition of dichloroacetonitrile in rats and mice 215

Effects of Disinfectants and Inorganic By-Products

Y. Kurokawa, S. Takayama, Y. Konishi, Y. Hiasa, S. Asahina, M. Takahashi, A. Maekawa, and Y. Hayashi. Long-term *in vivo* carcinogenicity tests of potassium bromate, sodium hypochlorite, and sodium chlorite conducted in Japan 221

B. D. Carlton, P. Bartlett, A. Basaran, K. Colling, I. Osis, and M. K. Smith. Reproductive effects of alternative disinfectants 237

N. W. Revis, P. McCauley, and G. Holdsworth. Relationship of dietary iodide and drinking water disinfectants to thyroid function in experimental animals 243

J. P. Bercz, L. L. Jones, R. M. Harrington, R. Bawa, and L. Condie. Mechanistic aspects of ingested chlorine dioxide on thyroid function: impact of oxidants on iodide metabolism 249

R. G. Wones and C. J. Glueck. Effects of chlorinated drinking water on human lipid metabolism 255

F. E. Scully, Jr., K. Mazina, D. Sonenshine, and F. Kopfler. Quantitation and identification of organic *N*-chloramines formed in stomach fluid on ingestion of aqueous hypochlorites 259

M. Y. Fukayama, H. Tan, W. B. Wheeler, and C. Wei. Reactions of aqueous chlorine and chlorine dioxide with model food compounds 267

S. Zierler, R. A. Danley, and L. Feingold. Type of disinfectant in drinking water and patterns of mortality in Massachusetts 275

Brief Report

E. V. Ohanian and J. A. Cotruvo. Summation from a regulatory perspective 281

Commentary

D. Kleffman. Health research needed to resolve scientific issues surrounding drinking water disinfection 285

Poster Session

B. G. Hammond, S. J. Barbee, T. Inoue, N. Ishida, G. J. Levinskas, M. W. Stevens, A. G. Wheeler, and T. Cascieri. A review of toxicology studies on cyanurate and its chlorinated derivatives 287

M. Robinson, R. J. Bull, M. Schamer, and R. E. Long. Epidermal hyperplasia in mouse skin following treatment with alternative drinking water disinfectants 293

R. J. Ruch, J. E. Klaunig, N. E. Schultz, A. B. Askari, D. A. Lacher, M. A. Pereira, and P. J. Goldblatt. Mechanisms of chloroform and carbon tetrachloride toxicity in primary cultured mouse hepatocytes 301

P. B. Key and G. I. Scott. The lethal and sublethal effects of chlorine, phenol, and chlorine-phenol mixtures on the mud crab, *Panopeus herbstii* 307
